

# Be a Nature Super Hero!

**Nature Super Heroes** are leaders, activists, and change-makers of all ages who recognize a problem and take action to work toward solutions. By spreading awareness of an issue and engaging with their community, Nature Super Heroes grow their team of change-makers and multiply their positive impact!

*Read the following problems and think of a solution to help each one.*

Plastic soda rings can get stuck around a wild animal's head and cause a lot of damage. What can you do to help?

As a **Nature Super Hero**, I can...

---

---

Sea Turtles may mistake a floating plastic bag for a jellyfish, one of their favorite foods. Eating the bag can make the sea turtle very sick. What can you do to help?

As a **Nature Super Hero**, I can...

---

---

The Northern Spotted Owl's home is in old growth redwood forests. Many redwood trees have been cut down. The loss of their habitat has made the Northern Spotted Owl in danger of becoming extinct. What can you do to help?

As a **Nature Super Hero**, I can...

---

---

When we learn about wildlife and the environment, we find more solutions to have a positive impact. Every time we choose to Go Green, other people see our actions and may decide to follow our lead.

As a **Nature Super Hero**, I can be a leader and set an example for others to follow by...
