

Wildlife in Peril

Conserving water is one way you can help wildlife and humans.

Read the water waste facts and try to come up with a way to save water for each.

Water Waste Fact	Water Saving Solution
 <p>Taking a bath requires 37 gallons on average.</p>	
 <p>Brushing your teeth with the water running uses 4 gallons of water.</p>	
 <p>Even a small leak in your faucet can lose 50-100 gallons of water a day.</p>	
 <p>A 30 minute shower uses an average of 100 gallons of water.</p>	
 <p>When watering plants during the daytime, 20-25% of the water is lost due to evaporation from the sun.</p>
