

Wildlife in Peril

WildCare came and taught about how human choices affect wildlife.

Use the knowledge you learned to decide if the statements below are true or false.

True or False The choices that humans make do not affect the plants or animals of the earth.

True or False Humans are connected to plants and animals in the food web.

True or False Kids can help make laws that protect the environment by writing to politicians about issues they care about.

True or False A better choice for the environment is to use a reusable cloth bag instead of paper or plastic bags.

True or False All plastic is recyclable.

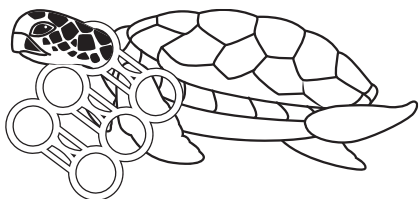

True or False If a wild animal is in your trash, you should put out food for them so they won't eat your trash.

True or False Skunks get their heads stuck in Yoplait yogurt containers; they can't get them off and are unable to see where they are going or eat any food.

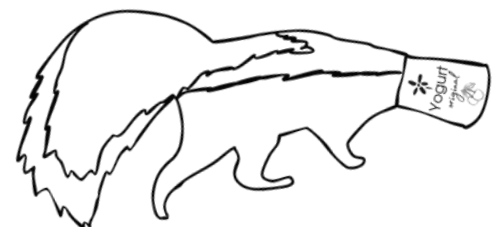

True or False Refusing to buy items with lots of plastic packaging reduces the trash that you make as an individual.

True or False The earth has more freshwater than saltwater, so humans do not have to conserve freshwater.

True or False A person choosing to make a positive impact and help wildlife influences others to do the same.

Wildlife in Peril **Answers**

WildCare came and taught about how human choices affect wildlife.

Use the knowledge you learned to decide if the statements below are true or false.

True or **False** The choices that humans make do not affect the plants or animals of the earth.
Humans have a large impact on the environment that can be good or bad depending on the choices they make.

True or **False** Humans are connected to plants and animals in the food web.

True or **False** Kids can help make laws that protect the environment by writing to politicians about issues they care about.

True or **False** A better choice for the environment is to use a reusable cloth bag instead of paper or plastic bags.

True or **False** All plastic is recyclable.
Plastics such as Styrofoam and soda pack rings are not recyclable and end up in the landfill, or worse out in the environment negatively impacting wildlife.

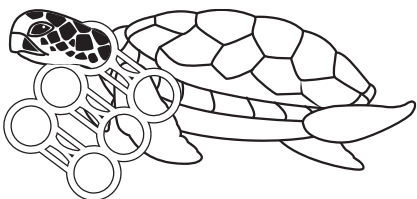

True or **False** If a wild animal is in your trash, you should put out food for them so they won't eat your trash.
Feeding wild animals means they will keep coming up to humans for their food, instead of foraging for natural food in the wild.

True or **False** Skunks get their heads stuck in Yoplait yogurt containers; they can't get them off and are unable to see where they are going or eat any food.

True or **False** Refusing to buy items with lots of plastic packaging reduces the trash that you make as an individual.

True or **False** The earth has more freshwater than saltwater, so humans do not have to conserve freshwater.
Of all the water on earth only 3% is freshwater and much of that water is trapped underground or in glaciers.

True or **False** A person choosing to make a positive impact and help wildlife influences others to do the same.
