

We visited the REDWOOD FOREST today!

The redwood forests are only found near the coast where they get moisture from the fog in the summer. Here are a couple of animals you might find in the redwood forest. Name other forest animals on the back of this page and draw a forest showing the animals' homes.

REDWOOD FORESTS

Post Field Trip Activity

Many animals live in the redwood forests.

Name four animals that depend upon the forest for their home.

Do they live in a tree, on the forest floor or in the creek?

1. Animal _____

Circle one: Lives in a: TREE FOREST FLOOR CREEK

2. Animal _____

Circle one: Lives in a: TREE FOREST FLOOR CREEK

3. Animal _____

Circle one: Lives in a: TREE FOREST FLOOR CREEK

4. Animal _____

Circle one: Lives in a: TREE FOREST FLOOR CREEK

Draw a forest scene. Include the four animals above and where they live:
