

# California Wildlife

California is home to many different kinds of wild animals. These animals eat lots of different things. During your WildCare Nature Van visit, you may have seen an example of a California animal that only eats meat (**carnivore**), only eats plants (**herbivore**), only eats bugs (**insectivore**), and an animal that can eat a little bit of everything (**omnivore**).

Draw a line from the animal on the left to its food on the right.

**Bobcat**

**Plants**

**Black-tailed Deer**

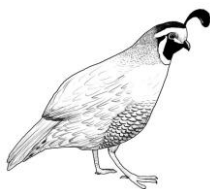

**Mosquito**

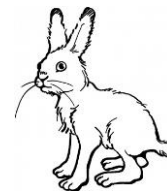

**Little Brown Bat**

**Grass Seeds**

**California Quail**

**Hare**
