California Wildlife

Scientists place animals into groups to help them gather information about what different types of animals have in common. Three of those groups are **mammals**, **reptiles**, and **birds**. Mammals are animals with fur. Reptiles are animals with scales. Birds are animals with feathers.

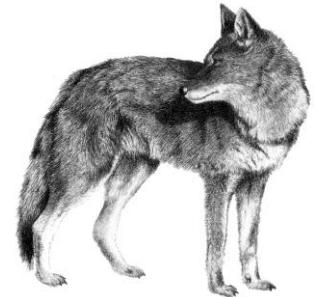

- Place a circle around the **MAMMALS**.
- Place a square around the **REPTILES**.
- △ Place a triangle around the **BIRDS**.

Killdeer

Fence Lizard

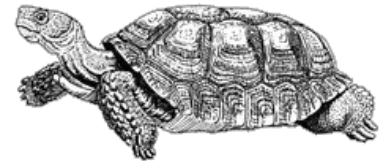

Coyote

Striped Skunk

Raccoon

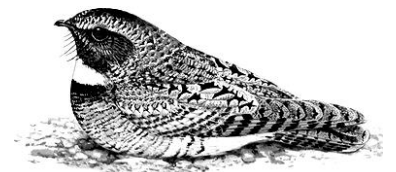

Desert Tortoise

Snowy Egret

Snake

Poorwill
