

# Redwood Giants Quiz

Match the wildlife vocabulary! Write the letter of the correct answer in the space provided before each statement.

1. \_\_\_\_\_ A ring of young trees growing around the stump of a redwood tree that has fallen down or burned.

2. \_\_\_\_\_ When a large area of trees is cleared by being cut down or burned.

3. \_\_\_\_\_ The highest layer of branches in a forest or on a tree.

4. \_\_\_\_\_ Young trees.

5. \_\_\_\_\_ A rounded knotty growth on a tree.

6. \_\_\_\_\_ A reddish acid that comes from plants. In redwood trees it helps to protect against harmful insects, fungus, and fire.

7. \_\_\_\_\_ The protection of animals, plants, and natural resources.

8. \_\_\_\_\_ The dense, older wood in the center of a tree trunk.

9. \_\_\_\_\_ A layer of vegetation beneath the canopy of a forest.

10. \_\_\_\_\_ An organism, especially a soil bacterium, fungus, or invertebrate, that breaks down organic material, helping to recycle nutrients into the soil.
