

# Redwood Giants

The Redwood Forest is a special habitat, or a place animals call home. Each of the animals pictured below will visit or make its home in the redwood forests. Forests are made up of different layers, just like a sandwich! Draw a line from the animal to the place where you might find it in the forest. You may find that some of the animals will visit more than one level!

**CANOPY**

**UNDERSTORY**

**CREEK**

**FOREST FLOOR**

# Example answer Redwood Giants

The Redwood Forest is a special habitat, or a place animals call home. Each of the animals pictured below will visit or make its home in the redwood forests. Forests are made up of different layers, just like a sandwich! Draw a line from the animal to the place where you might find it in the forest. You may find that some of the animals will visit more than one level!

The image shows a redwood forest with four habitat levels labeled on the left: CANOPY, UNDERSTORY, CREEK, and FOREST FLOOR. On the right, four animal icons are shown in circular frames: SALMON, RACCOON, SPOTTED OWL, and GRAY SQUIRREL. Red lines connect the animals to their habitats: SALMON to CREEK, RACCOON to UNDERSTORY, SPOTTED OWL to CANOPY, and GRAY SQUIRREL to FOREST FLOOR.
