Please scan here to see a PDF of the directions!

wildcare

Dear Wildlife Camp Families,

Welcome to Wildlife Camp! We are looking forward to learning about wildlife with your child and expanding their awareness of the natural wonders around us. Please take the time to read **all** of the following information.

If you have any questions, please contact us at education@discoverwildcare.org.

Code of conduct:

- WildCare campers and staff are expected to treat all people and animals with dignity and respect at all times.
- Children are expected to behave in a manner that allows for all campers to have fun. This includes following directions and actively participating.
- Please leave electronics at home. Cell phones must be turned off and stored in your child's backpack during camp hours.
- Any child that hits, kicks, runs away from the camp group, uses foul language, or otherwise disrupts camp in such a manner that impedes the fun or safety of the other campers will be asked to leave.

WildCare is a Wildlife Hospital and Nature Education Center that has existed in San Rafael for over 50 years. WildCare's mission is to advocate for wildlife and create a more sustainable world. We actively pursue this mission through nature education, wildlife medicine, advocacy, and community outreach.

WildCare is home to 13 non-releasable educational wild animals that engender compassion for our wild neighbors, spark curiosity about our natural world, and influence a lifetime of environmental stewardship.

Safety: We want every camper to have a fun and safe experience. Because this program is often outdoors, there are some hazards your child could encounter. Hazards include mosquitos, bees, wasps, and ticks. **Please check your child thoroughly for ticks.** If your child has an allergy, please be sure to include this information on their Emergency Form.

Nut Free! Please leave all peanut and nut derived food items at home. While we are unable to completely eliminate the possibility that peanut or nut products may be present on site, we require our campers, staff, and volunteers to not include such products in their lunch and snack.

Illness: In order to prioritize the health and safety of our campers and staff, we ask you **keep home a camper who is showing any signs or symptoms of any contagious illness**. Any participant may wear a mask if they choose, but it is not required. If any concerning symptoms or positive COVID tests have been present in your household, please contact Camp Manager Casey Pearce at 216-352-1431.

WildCare's Summer Wildlife Camps will be held at Angelico Hall, 20 Olive Avenue in San Rafael, while WildCare's original site is under construction. Our live ambassador animals will come to visit camp so your camper won't miss out on their amazing wildlife experiences. We thank you for your understanding during this time of transition.
