

A Nature Hike

You will soon be going on a Nature Hike with WildCare's Terwilliger Nature Guides. You will visit *habitats*, or places where wild animals and plants live.

Some animals can only live in one kind of habitat, and some animals might live in lots of different habitats!

Draw a line from the animal to its habitat.

Tadpole

MEADOW

Turkey Vulture

Brush Rabbit

POND

Mallard Duck

Barn Owl

Dragonfly

Gray Squirrel

FOREST

Black Tailed Deer

76 Albert Park Lane, San Rafael, CA 94901
415-453-1000 www.discoverwildcare.org

On our hike with WildCare's Terwilliger Nature Guides, we may see some things that **do** belong in the wild and some things that **do not** belong in the wild. Things like leaves from trees, acorns, feathers and rocks help make up a habitat, but things like napkins, wrappers and plastic bags can harm the habitat and the animals that live there.

Put an X over the things that should NOT be left in nature!

Pine Cone

Feather

Wrapper

Acorns

Cup

Nest

Water Bottle

Leaf

Plastic Bag

Let's be careful on our hike to leave everything just like we found it!

76 Albert Park Lane, San Rafael, CA 94901
