

WildCare Ambassador Zone Tour

California is home to many different kinds of wild animals. These animals eat lots of different things. During your visit to WildCare, you may have seen an example of a California animal that only eats meat (**carnivore**), only eats plants (**herbivore**), and an animal that can eat a little bit of everything (**omnivore**).

Draw a line from the animal on the left to its food on the right.

Virginia Opossum
