WildCare and Friends of WildCare

Combined Financial Statements

For the Year Ended September 30, 2019

WildCare and Friends of WildCare
(California Not-For-Profit Corporations)
September 30, 2019

CONTENTS

INDEPENDENT AUDITORS' REPORT

The Board of Directors
WildCare and Friends of WildCare:

We have audited the accompanying combined financial statements of WildCare and Friends of WildCare (two California not-for-profit organizations under Section 501(c)(3) of the Internal Revenue Code), which comprise the combined statement of financial position as of September 30, 2019, and the related combined statements of activities, cash flows and functional expenses for the year then ended, and the related notes to the combined financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these combined financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these combined financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the combined financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the combined financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entities' preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entities' internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the combined financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the combined financial statements referred to above present fairly, in all material respects, the combined financial position of WildCare and Friends of WildCare as of September 30, 2019, and the changes in combined net assets and combined cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

See accompanying auditors' report and notes to financial statements.

WildCare and Friends of WildCare
Notes to Combined Financial Statements
For the Year Ended September 30, 2019

1. Organization

WildCare is a California-based 501(c)(3) nonprofit public benefit corporation which was created in 1994 as the result of a merger between the California Center for Wildlife and the Terwilliger Nature Education Center. Friends of WildCare is a 501(c)(3) nonprofit organization incorporated in California on December 18, 2017, for the purpose of holding assets and raising funds in support of acquiring and developing expanded facilities for WildCare. WildCare and Friends of WildCare operate on the same site as the predecessor organization, which had been operating there since 1954.

WildCare is a wildlife hospital and environmental education center based in San Rafael, California. For over 60 years, WildCare has been a first responder to wildlife that share the same habitat as humans. Annually, its hospital provides emergency and ongoing medical care to about 3,500 animals from more than 200 distinct species. Nearly 99% of the wild animals assisted by the organization have been injured in some way as a result of human interaction. In addition to giving sick and injured wild animals and birds a second chance at life, WildCare works to encourage humans to live well with wildlife. To that end, its environmental education programs reach over 35,000 school children and adults annually. WildCare maintains a hotline responding to callers seeking information about local wildlife and advising home-owners on solutions to handle wildlife issues.

2. Summary of Significant Accounting Policies

Basis of Accounting
The combined financial statements of WildCare and Friends of WildCare (jointly the "Entities") have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America. Significant accounting policies are described below to enhance the usefulness of the financial statements to the reader.

Basis of Presentation
The Entities present combined financial statements because they have common control through the same Board of Directors and management. All significant intercompany accounts and transactions have been eliminated in the combined financial statements.

2. Summary of Significant Accounting Policies *(continued)*

The Entities report information regarding its financial position and activities according to two classes of net assets based on the existence or absence of donor-imposed restrictions. Accordingly, the net assets of the Entities and changes therein are classified as follows:

> Net assets without donor restrictions: Net assets that are not subject to donor-imposed restrictions and may be expended for any purpose in performing the primary objectives of the Entities. The Entities' board may designate assets without restrictions for specific operational purposes from time to time.

> Net assets with donor restrictions: Net assets subject to stipulations imposed by donors and grantors. Some donor restrictions are temporary in nature; those restrictions will be met by actions of the Entities or by the passage of time. Other donor restrictions are perpetual in nature, whereby the donor has stipulated the funds be maintained in perpetuity.

Contributions
Unconditional contributions are recognized when pledged and recorded as net assets without donor restrictions or net assets with donor restrictions, depending on the existence and/or nature of any donor-imposed restrictions. Conditional promises to give are recognized when the conditions on which they depend are substantially met. Gifts of cash and other assets are reported with donor restricted support if they are received with donor stipulations that limit the use of the donated assets.

When a restriction expires, that is, when a stipulated time restriction ends or a purpose restriction is accomplished, net assets with donor restrictions are reclassified to net assets without donor restrictions and reported in the statement of activities as net assets released from restrictions. Donor-restricted contributions whose restrictions are met in the same reporting period are reported as net assets without donor restriction support. Donations of property and equipment are recorded as support at their estimated fair value at the date of donation. Contributions restricted for the acquisition of land, buildings, and equipment are reported as net assets without donor restriction upon acquisition of the assets and the assets are placed in service.

Grants and Accounts Receivable Realization
An allowance for doubtful accounts reflects management's best estimate of probable losses inherent in grants and accounts receivable balances. Management primarily determines the allowance based on the aging of accounts receivable balances. Receivables are generally considered past due once a receivable is not paid within thirty days of contract terms. It is the Entities' policy to not charge interest on its receivables. Receivables are written off once management has determined the ability to collect is not possible. An allowance of $115,000 to pledges with donor restrictions was deemed necessary as of September 30, 2019.

Cash and Cash Equivalents
The Entities consider all highly liquid investments (checking, savings, money markets, and certificates of deposits) with a maturity of three months or less when purchased to be cash equivalents.

2. Summary of Significant Accounting Policies *(continued)*

The Entities maintain a majority of their cash in bank deposit accounts which, at times, may exceed federally insured limits of $250,000. The Entities attempt to limit credit risks associated with cash equivalents by utilizing highly rated financial institutions. Management believes the Entities are not exposed to any significant credit risk relating to its cash deposits. As of September 30, 2019, no cash amounts were uninsured under FDIC coverage.

Investments
Investments include cash, stocks, and mutual funds. Purchased investments are initially stated at cost. Investments received by gift are recorded at market value at the date of contribution. The policy of the Entities is not to hold any other investments and to immediately liquidate stock donations, transferring proceeds temporarily held in money market funds of the brokerage account to the operating bank account.

Investments in equity securities having a readily determinable fair value and in all debt securities are carried at fair value. Other investments are valued at the lower of cost or fair value. Net appreciation (depreciation) in the fair value of investments, which consists of the realized gains or losses and the unrealized appreciation (depreciation) on those investments, is presented in the statement of activities in accordance with donor restrictions as investment return. Investment return is presented net of investment fees. The average cost method is primarily used to determine the basis for computing realized gains or losses.

The Entities adopted a framework for measuring fair value. Fair value is defined as the price that would be received to sell the asset or would be paid to transfer the liability in an orderly transaction between market participants. The Entities' financial assets shown at fair value include investments and grants and pledges receivable.

New Accounting Pronouncement
On August 18, 2016, FASB issued ASU 2016-14, Not-for-Profit Entities (Topic 958) – Presentation of Financial Statements of Not-for-Profit Entities. The update addresses the complexity and understandability of net asset classification, deficiencies in information about liquidity and availability of resources, and the lack of consistency in the type of information provided about expenses and investment return. The Entities have adjusted the presentation of these statements accordingly. The ASU has been applied retrospectively. The implementation required the combination of what was previously reported as temporarily restricted net assets of $1,521,508 and permanently restricted net assets of $94,862.

Unearned Revenue
Unearned revenue represents amounts billed or received in advance for educational programs scheduled to be given during the following fiscal year. Such amounts have been reflected as a current liability on the combined statement of financial position and will be recognized as earned revenue in the subsequent year when the programs are provided.

2. Summary of Significant Accounting Policies *(continued)*

Functional Expenses
The costs of providing program and other activities have been summarized on a functional basis in the statements of activities. The statement of functional expenses presents the natural classification of expenses by function. Accordingly, certain costs, including personnel costs, insurance, depreciation, and rent, have been allocated among animal services programs, educational programs, and supporting services benefited. Such allocations are determined by management based upon an analysis of time and effort spent on the programs and supportive services.

Use of Estimates
The preparation of combined financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the combined financial statements and the reported amounts of support, revenues, and expenses during the reporting period. Actual results could differ from those estimates.

Property, Equipment, and Improvements
Property and equipment are valued at cost or, if donated, at fair market value on the date of donation. Depreciation is provided by use of the straight-line method over the estimated useful lives of the assets with lives that range from building and improvements (5-10 years); furniture and equipment (3-15 years). The cost of property and equipment which benefit future periods is capitalized and depreciated over the estimated useful life of each class of depreciable asset.

Contributed Services and Costs
Contributed services and costs are reflected at the fair value of the contribution received. The contributions of services and costs are recognized if they (a) create or enhance nonfinancial assets or (b) require specialized skills that are provided by individuals possessing those skills and would typically need to be purchased if not provided by donation.

Income Taxes
Both of the Entities have received notification from the Internal Revenue Service and the State of California that they qualify for tax-exempt status under Section 501(c)(3) of the Internal Revenue Code and Section 23701d of the California Revenue and Taxation Code. The exemptions are subject to periodic review by the federal and state taxing authorities and management is confident that the Entities continue to satisfy all federal and state statutes in order to qualify for continued tax exemption status. Accordingly, the Entities are generally exempt from federal and state income taxes. The Entities' informational returns are subject to examination by the Internal Revenue Service and the California Franchise Tax Board, generally for three years and four years, respectively, after they are filed.

3. Accounts, Grants, and Pledges Receivable

Accounts, grants, and pledges receivable are expected to be collected as follows:

Accounts, grants, and pledges receivable due within one year	$ 1,010,544
Accounts, grants, and pledges receivable due after one year, net	917,583
Subtotal	1,928,127
Less: unamortized discount	(39,800)
Subtotal	1,888,327
Total amounts due within one year	(1,010,544)
Total Accounts, grants, and pledges receivable long-term, net	$ 877,783

Accounts, grants, and pledges receivable represent amounts due from various sources, including foundations, individuals, and others. Accounts, grants, and pledges receivable due in more than one year, net of allowance for doubtful accounts of $115,000 to pledges with donor restrictions, are reflected at the present value of estimated future cash flows using a discount rate of 4% per annum (based on certain relevant data regarding the type of receivable).

The Entities are in the process of a capital campaign to locate an additional facility. The accounts, grants, and pledges receivable due in more than one year are pledges received to help finance the acquisition and possible renovation of a new facility. The pledges are not required to be collected until a property is identified.

4. Available Resources and Liquidity

The Finance Committee and senior management of the Entities regularly monitor liquidity required to meet operating needs and other contractual commitments, while also striving to maximize the investment of its available funds. The Entities have various sources of liquidity at their disposal, including cash and cash equivalents, receivables, and pledges. In December, 2019, the Entities obtained a $250,000 line of credit from a local bank secured by a wholly-owned property consisting of land and building.

For purposes of analyzing resources available to meet general expenditures over a 12-month period, management of the Entities consider all expenditures related to ongoing activities of the conduct of animal healthcare services, research, and teaching youth, family, and the general public about living well with wildlife and related environmental health concerns.

In addition to financial assets available to meet general expenditures over the next 12 months, the Entities operate with a balanced budget and anticipate collecting sufficient revenue to cover general expenditures not covered by donor-restricted resources.

(continued)

5. Available Resources and Liquidity *(continued)*

As of September 30, 2019, the following table shows the total financial assets held by the Entities which the Entities believe could readily be made available within one year of the balance sheet date to meet general expenditures.

Financial assets at year-end		
Without donor restrictions:		
Cash and cash equivalents	$	172,675
Accounts, grants, and pledges receivable		1,010,544
Financial assets available to meet general expenditures over the next twelve months	$	1,183,219

Cash and receivables with donor restrictions are assets of the Friends of WildCare Facilities Expansion fund dedicated to obtaining a new facility for WildCare and have not been taken into consideration as the resources will be used for property acquisition and renovations.

6. Property and Equipment

Property and equipment consist of the following at September 30, 2019:

Land	$	15,000
Building and improvements		150,599
Furniture and equipment		482,116
Less accumulated depreciation		(611,941)
Total property and equipment, net	$	35,774

7. Investments and Endowment

The Entities have two donor restricted investment assets: a stock investment and an investment in Marin Community Foundation (MCF.) In 2009, a foundation which had been holding a block of 498 shares of stock for WildCare's benefit closed down and transferred the shares to WildCare with the provision that the shares be held in perpetuity with any dividends to be used as unrestricted funds.

WildCare has an investment in a perpetual trust as well as being a designated beneficiary of another perpetual trust, both administered by MCF which has variance power. The terms of the trusts mandate perpetual control of the corpus by the named trustee. WildCare is entitled to receive annually a portion of the funds' investment earnings in accordance with the MCF's spending policy. Excess earnings are applied toward the principal balance for future distribution. During the year ended September 30, 2019, WildCare received a distribution of $1,105 from the investment in perpetual trust and $6,985 from the designated beneficiary trust.

(continued)

7. Investments and Endowment *(continued)*

Investments consist of the following at September 30, 2019:

	Cost	Fair Value
Equities	$ 50,915	$ 84,262
Investment in perpetual trust	43,947	47,735
Total investments	$ 94,862	$ 131,997

Endowment net asset composition by type of fund is summarized as follows as of September 30, 2019:

	Without Donor Restrictions	With Donor Restrictions	Total
Total investments	$ 37,135	$ 94,862	$ 131,997

Changes in endowment net assets for the fiscal year ended September 30, 2019 is summarized as follows:

	Without Donor Restrictions	With Donor Restrictions	Total
Endowment net assets at beginning of year	$ 35,688	$ 94,862	$ 130,550
Investment return:			
Investment income	1,364	-	1,364
Unrealized gains	490	-	490
Total investment return	1,854	-	1,854
Investment fees	(407)	-	(407)
Endowment net assets at end of year	$ 37,135	$ 94,862	$ 131,997

Funds with Deficiencies

From time to time, the fair value of assets associated with individual donor restricted endowment funds may fall below the level that the donor or the Uniform Prudent Management of Institutional Funds Act (UPMIFA) requires the Entities to retain as a fund of perpetual duration. There were no deficiencies of this nature that are required to be reported in net assets without donor restrictions as of September 30, 2019. Although there were no such deficiencies at September 30, 2019, future deficiencies could result from unfavorable market fluctuations that occurred after the investment of new restricted contributions and continued appropriation for certain programs that was deemed prudent by the Board of Directors. Investments of the Entities may decline below their original basis due to market fluctuations and unrealized losses which are beyond the control of management. Deficiencies of this nature, if any, would be reported in net assets without donor restrictions.

(continued)

7. Investments and Endowment *(continued)*

Spending Policy and How the Investment Objectives Relate to Spending Policy
The Entities follow MCF's policy of appropriating for distribution each year a flexible amount that ensures spending will continue without deterioration of endowment principal. For the year ending September 30, 2019, MCF approved a spending level of 4.5% of the fair market value of the invested endowment fund.

8. Fair Value Measurements

Fair value measurements establish a fair value hierarchy that prioritizes the input used to measure fair value. This hierarchy consists of three broad levels: (a) Level 1 measurement reflects the value of the investments at quoted prices in active markets for identical assets, generally without any adjustments, (b) Level 2 assets and liabilities are valued based on "observable inputs" other than quoted active market prices, including quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, and interest rates and yield curves, and (c) Level 3 assets and liabilities are valued based on "unobservable inputs," such as a company's own estimates and pricing models.

Composition of assets utilizing fair value measurements on a recurring basis at September 30, 2019, is as follows:

	Total	Level 1	Level 2	Level 3
Equities	$ 84,262	$ 84,262	-	$ -
Investment in perpetual trust	47,735	-	-	47,735
Accounts, grants, and pledges receivable	1,888,327	-	1,010,544	877,783
Totals	$ 2,020,324	$ 84,262	$ 1,010,544	$925,518

The fair value of the equities is measured at quote prices in active markets on the last trade day of the fiscal year. The Entities consider the measurement of its perpetual trust to be a Level 3 measurement within the fair value measurement hierarchy because even though that measurement is based on the unadjusted fair value of trust assets reported by the trustee, the Entities do not have the ability to direct the trustee on its investments.

A reconciliation of the activity during the year ended September 30, 2019 for the beneficial interest in the perpetual trust which are assets measured at fair value based on significant unobservable (nonmarket) information is as follows:

Balance at September 30, 2018	$ 47,038
Investment return	8,787
Distributions	(8,090)
Balance at September 30, 2019	$ 47,735

(continued)

8. Fair Value Measurements *(continued)*

The significant unobservable inputs used in the fair value measurement of the entity's receivables are the estimated present values of the future estimated cash flows. The income approach uses valuation techniques to convert future amounts (cash flows) to a single present amount (discounted). The measurement is based on the value indicated by current market expectations about those future amounts. Those valuation techniques principally include present value formulas which incorporate certain rate of return assumptions. The only change in the Entities' receivables measured at fair value based on significant unobservable information during the year ended September 30, 2019, was the creation of an allowance for doubtful accounts to pledges with donor restrictions of $115,000.

9. Lease Commitments

WildCare rents office space under a lease agreement which terminated effective September 30, 2019 however was renewed for an additional twelve months at a rate of $1,168 per month. The total amount incurred in rent during the year ended September 30, 2019 was $14,288.

10. Net Assets with Donor Restrictions

Changes in net assets with donor restrictions for the fiscal year ending September 30, 2019 consisted of the following:

Change in allowance for doubtful accounts	-	-	(115,000)	(115,000)
Net facility expansion fund	1,521,508	6,732	(169,217)	1,359,023
Restricted in perpetuity	94,862			94,862
Grants for various animal care and wildlife education purposes	-	50,000	(47,142)	2,858
Totals	$1,616,370	$56,732	$(216,359)	$1,456,743

11. Note Payable

During the year ending September 30, 2019, a related party loaned the Entities $250,000 in notes of $100,000 and $150,000, both accruing interest at 4% per year, compounded monthly. The $150,000 note and accrued interest was paid off in March, 2019 and the $100,000 note and accrued interest was paid off in November, 2019. As of September 30, 2019 accrued interest totaled $3,552. Interest paid during the year ended September 30, 2019 totaled $2,517.

12. Donated Services and Materials

The Entities' have received, valued, and recorded professional in-kind services. Donated services are received from attorneys who donate their time to provide legal services to the Entities. Donated services are included in the financial statements as donated services revenue and in-kind legal services. The total donated attorney services amounted to $137,661 for the year ended September 30, 2019.

13. Retirement Plans

WildCare maintains a 401(k) safe harbor profit sharing pension plan covering all eligible employees who have attained twenty-one years of age and have completed twelve months of service. Employees are eligible to make elective contributions up to the maximum amount allowed by the Internal Revenue Code. WildCare makes matching contributions up to 6% of the employees' eligible compensation. WildCare contributed $51,639 for the year ended September 30, 2019.

14. Allocation of Joint Costs

The Entities incurred allocable joint costs during the year ended September 30, 2019 of $192,006 for the informational materials and activities that included fundraising appeals. Of those costs, $76,802 was allocated to fundraising expense and $115,204 was allocated to public education. These allocations were based on analyses of the costs pertaining to the underlying direct mail program and the educational and fundraising activities associated with various mailings.

15. Subsequent Events

Subsequent events have been evaluated through June 1, 2020, the date the financial statements were available to be issued. In March 2020, a pandemic emerged around the world. As a result, the economic environment of the Entities has been impacted. The extent the pandemic will impact operations will depend on future developments, which are highly uncertain. The pandemic could result in a loss of revenue and other material adverse effects to the Entities. The Entities' management is currently unable to determine if the pandemic will have a material financial impact.
